Websites Supported — Features — Appearance — Funding — Users

Websites Supported	Features	Appearance	Funding	Users	
Blackboard	Google Maps w/ classroom locations	Simple design	Crowd funded	College students	Meant to be abstracted enough for use at any university
University website	Google Maps w/ bus locations	UI uses school colors	1 week free trial	Professors / faculty	Registrar / IT dept would be the ones to personalize the service for each college?
Postmates, Grubhub (?)	Popular food locations around the school	Dashboard which lists out the different websites used	$4 / month		
Bookstore, Chegg	Schedule	UI should be very visual so as to convey lots of information without being overwhelming	Sponsoring businesses
